

Annual Health Update

Each year the school requests that parents/guardians complete an annual health update on each student. This needs to be completed every year so that we are sure to have the most current health information. Health conditions such as diabetes, asthma, epilepsy/seizures, hypertension, orthopedic conditions, severe hearing loss/visual loss, etc. should be listed. Also, list ALL routinely-administered medications that your child takes (whether taken at home or at school). Severe allergies such as reactions to bee stings, medications, foods, etc. should be included along with a description of the KIND of reaction that they have (i.e., swelling, difficulty breathing, rash/hives, nausea/vomiting, etc.) and the necessity of emergency medication during a reaction. This information will be shared with teachers, bus drivers, cafeteria workers or office personnel as appropriate to make sure that your child's needs are met throughout the school day. Please contact your school nurse if you have any questions or would like to discuss your child's healthcare needs in more detail. Please refer to the section on "Medication at School" if your child will need to receive medication during the school day.

PLEASE REMEMBER TO CONTACT THE SCHOOL NURSE OR THE OFFICE DURING THE SCHOOL YEAR WITH ANY CHANGES TO YOUR CHILD'S HEALTH INFORMATION
